BOARDS APPOINTED UNDER SECTION 66 OF *The Public Schools Act*

13.(1) Where a rural school-section is designated and a board appointed under subsection 1 of section 66 of *The Public Schools Act*, "approved cost" means the total amount of money paid out of current revenue, less tuition fees received from another board, under the Acts administered by the Minister and the regulations thereunder, for the operation of the schools of the board during the preceding year exclusive of capital expenditures and expenditures for text-books, books of reference, milk and rent, but inclusive of the board's costs for pupils attending schools under the jurisdiction of another board.

(2) Except in the case of the board of a larger unit of administration, the total grants payable under this Part shall not exceed the amount by which the cost of operating exceeds the township grant payable under section 91 or 115 of *The Public Schools Act*.

PART 2

HIGH SCHOOLS, CONTINUATION SCHOOLS AND VOCATIONAL SCHOOLS

APPLICATION

15. This Part applies to general legislative grants in respect of high schools, continuation schools and vocational schools.

INTERPRETATION

16.(1) In this Part "approved cost" means for high schools and continuation schools, but subject to subregulation 3,

- (a) payments in respect of principal, interest and other charges due in the current year on debentures issued on or after the 1st of January, 1945, for new buildings, additions to buildings, or for equipment, and
- (b) the total of the disbursements made from current funds by a board or on its behalf during the preceding year, except as set forth under regulations 24 and 25, in respect of

(i) principal, interest and other charges due in that year on debentures and capital loans, issued or obtained before the 1st of January, 1945,

(ii) transportation of pupils to and from school, but only where their parents or guardians do not contribute directly to the cost of the transportation,

(iii) tuition fees paid to another board for pupils attending a high, continuation or vocational school operated by that board and, where regulation 23 is applicable, tuition fees with respect to the year preceding the transfer which are owed to the board of any former district transferred to a new district by any other board transferred to that district,

(iv) capital outlays for new buildings and additions to buildings,

(v) capital outlays for school buses,

(vi) capital outlays, in schools already in operation, for power-operated equipment, business machines, typewriters, musical instruments, desks, and gymnasium equipment, used for instructional purposes, and, where the population per municipality is under 3000, for new heating-equipment, new lighting and new sanitary-conveniences of a modern type, and

(vii) restoration of insured school-property destroyed or damaged, but not exceeding an amount equal to the insurance proceeds received in respect thereof,

less current-fund receipts as follows:

(viii) amounts transferred to current funds from capital funds,

(ix) insurance proceeds,

(x) proceeds from the sale of capital assets, and

(xi) refunds and reimbursements connected with disbursements previously included in approved cost.

(2) In this Part

(a) subject to subregulation 3, "approved cost" means for vocational schools the total of the disbursements made by a board or on its behalf from

(i) current funds in respect of principal, interest and other charges due in the current year on debentures other than

those issued in respect of buildings, additions to buildings, or equipment under sub-clause ii, and

- (ii) current or capital funds in respect of capital outlays for new buildings or additions to buildings, or for equipment,

less current-fund receipts as follows:

- (iii) amounts transferred to current funds from capital funds,
- (iv) insurance proceeds,
- (v) proceeds from the sale of capital assets, and
- (vi) refunds and reimbursements connected with disbursements previously included in approved cost;

- (b) "assessment" means

- (i) subject to sub-clause ii, the assessment of all property rateable for school purposes in each municipality within or partly within the high- or continuation-school district, whether or not only part of the municipality is included in the district, as shown by the assessment roll on which taxes were levied for the preceding year, and where moneys are received by the board under subsection 5, 8 or 9 of section 33 of *The Assessment Act*, includes an amount of mines-profit assessment equivalent to that which, if levied upon at the rate of real-property taxation levied on rate-payers of the high- or continuation-school district for school purposes, would result in taxes equal to the amount of mines-profit tax so received by the board, or
- (ii) where that high- or continuation-school district is in a municipality which forms part of a county for municipal purposes, the amount at which that assessment was equalized,

but where the assessment to be used for a municipality in the calculation of the grant under these regulations is more than 120 per cent of the assessment used for that municipality in the preceding year, the assessment of that municipality means 120 per cent of the latter assessment;

- (c) "assessment per capita" means the quotient obtained by dividing the number representing the assessment by the number representing the population but where there is no assessment for school purposes, the assessment per capita means an assessment per capita of \$1150;
- (d) "population" means the total population of each municipality within or partly within the high- or continuation-school district, whether or not only part of the municipality is included in the district, as shown by the assessment rolls on which taxes for the preceding year were levied, less the number of inmates of public institutions; and

- (e) "population per municipality" means the quotient obtained by dividing the total population of municipalities in whole or in part in the high- or continuation-school district by the number of those municipalities, but where no population is available, the population per municipality means fifty times the average daily attendance.

(3) Except where grants are payable under subregulation 2 of regulation 20, debenture charges and capital outlays from current funds shall form part of the approved cost only in the proportion that the average daily attendance of all pupils other than pupils from other high-school districts attending the schools under the jurisdiction of a board, bears to the total average daily attendance in those schools.

AVERAGE DAILY ATTENDANCE

17.(1) Subject to subregulation 2, "average daily attendance" for the purposes of the grant to a board under subregulation 1 of regulation 22 means average daily attendance of pupils for the preceding year but does not include pupils from another high- or continuation-school district.

(2) Where in the high schools or continuation schools of a board the average daily attendance of pupils for the preceding year including pupils from another high- or continuation-school district is under 400, "average daily attendance" for the purposes of regulation 22 means the greater of

- (a) the average daily attendance, and
- (b) the number of teachers employed in the schools throughout December of the preceding year multiplied by 20,

less the average daily attendance of pupils from another high- or continuation-school district.

(3) Under clause b of subregulation 2 the number of teachers shall not

- (a) exceed 20, or one for each 18 pupils or fraction thereof of the average daily attendance, whichever is the lesser, or
- (b) be calculated at less than 2 in respect of a school on an island or in a territorial district.

AMOUNT OF GRANTS

18. The board of a continuation school shall be paid a grant of

- (a) 75 per cent of the approved cost where the school is in a territorial district or on an island, or
- (b) 50 per cent of the approved cost where the school is situated elsewhere.

19.(1) Subject to subregulations 2 and 3, and to regulations 24, 25 and 34, the board of a high-school district which operates a school shall be paid a grant of a percentage of the approved cost as set forth in Columns 2, 3 or 5, as the case may be, in accordance with the population per municipality set opposite thereto in Column 1, and the board of a high-school district which does not operate a school shall be paid a grant of a percentage of the approved cost as set forth in Column 4, in accordance with the population per municipality set opposite thereto in Column 1 as follows:

SPECIAL HIGH-SCHOOL DISTRICTS

24. Subject to regulation 23, where a high-school district includes a city and one or more townships, or a city and not fewer than 16 school sections,

- the average daily attendance of resident pupils and the approved cost, excluding transportation, shall be divided between the city and the remainder of the district in the same proportion as the enrolment of pupils on the first school-day in October of the same year was divided, and

- the approved cost of transportation shall be added to the approved cost apportioned to the remainder of the district,

and the grants under this Part shall then be calculated as if a board operating a school existed for each of the 2 portions of the district and the total thereof paid to the board of the district.

NEW BOARDS AND BOARDS COMMENCING OPERATION OF A SCHOOL

25.(1) In the year in which a new high- or continuation-school district is established which includes a municipality not previously in another secondary-school district, the average daily attendance and approved cost shall be for the current year, and shall be used for the purposes of this Part until the year following that in which the board of the former district has operated a school for a year.

The board of a public or separate school in an urban municipality with a population under 2500 or in a rural municipality with a population under 20,000, or the board of a public school appointed under subsection 1 of section 66 of *The Public Schools Act*, shall be paid a grant for books of reference prescribed under clause i of subsection 1 of section 4 of the Act, computed by multiplying \$1 by the average daily attendance in grades I to X, both inclusive, during the preceding year.

32. The board of a high, continuation or vocational school shall be paid a grant for text-books prescribed under clause i of subsection 1 of section 4 of the Act, computed by multiplying \$3 by the average daily attendance of pupils in grades IX and X during the preceding year, but excluding from the computation those pupils attending from other high- or continuation-school districts.

PART 5 ANNEXATION GRANTS

APPLICATION

33. This Part applies to grants following annexation.

AMOUNT OF GRANTS

34.(1) Where part of a municipality is annexed to an urban municipality on or after the 1st of January, 1949, and at the date of annexation there are outstanding debentures for one or more school buildings in that part, the public-, separate- or high-school board of the urban municipality shall, except in the year of annexation, be paid a grant on the debenture instalments due and paid in the preceding year to the extent that the payments on the debentures would have been eligible for a grant if the annexation had not taken place.

(2) The amount of the grant under subregulation 1 shall be calculated at the rate applicable to

- (a) the board of the school section, separate school, or high-school district, in the annexed area for the year preceding annexation, or
- (b) the board of the urban municipality for the year preceding annexation,

whichever rate is the greater.

35.(1) Where on or after the 1st of January, 1949, an urban municipality having a population in the year preceding annexation of more than 10,000, annexes an area in which the combined average daily attendance of public-, separate- and secondary-school pupils resident in that area exceeds 20 per cent of the combined average daily attendance of public-, separate- and secondary-school pupils resident in the urban municipality, there shall be paid to each board of the urban municipality an annexation grant per pupil as set forth in subregulations 2, 4 and 5.

(2) The annexation grant per pupil shall be the amount by which the grant per pupil paid under these regulations to the board or boards of the urban municipality in the year of annexation is exceeded by the grant per pupil paid in the same year in the annexed area, ascertained by dividing the grant paid in each case, exclusive of grants on debentures and for transportation, by the average daily attendance of resident pupils.

(3) In the first year following the annexation, the grants shall be calculated and paid as set forth in regulations 10 and 23.

(4) In the second, third, fourth and fifth years following the annexation, the annexation grant per pupil shall be paid on the excess of the average daily attendance of resident pupils of the board of the urban municipality subsequent to annexation over the average daily attendance of the resident pupils of the board of the urban municipality in the year preceding annexation.

(5) In the sixth year following the annexation, the annexation grant per pupil shall be reduced by 20 per cent, and in each year thereafter by an additional 20 per cent for each additional year.
